Information for Applicant		
15	Brief Description of the Assignment	Government has already been developed few enterprise level e-government solutions and have some others upcoming solutions and platform to be developed such as MMCS and Sathi etc. At the same time government has tried to develop enterprise architecture for establishing whole of government approach as well as has tried to develop some sector wise frameworks. For the development of enterprise level e-government architecture, frameworks and solutions, it is necessary to develop principles, standards and guidelines. There is a need to involve third party specialized firm for development, documentation, maintenance for such kind of standards and guideline for specific architecture, framework and solution.

		<p>Procurement of such service is a time consuming job and it really hampers the continuity of the existing solutions/platform and make delay the development of new solutions and platform.</p> <p>If there is a pool of pre-qualified vendors exist then it will reduce the time tremendously to engage third party specialized firm for a particular solution/ service.</p> <p>For detail Terms of Reference (TOR) please log in: www.a2i.gov.bd</p>
